DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1,,2,6,8,14,16,18-24 are rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Bourne'997.

The applied reference teaches the claimed embolic composition. See summary of the invention, column 1, lines 45-67, column 2, lines 1-25, column 3, lines 18-28, column 6, lines 16-58, column 7, lines 9-23, column 8, lines 33-67, column 11, lines 43-46, column 13, lines 44-60, column 14, lines 1-67.

The amendments and remarks filled by applicants in their last response have been fully considered. Claims, however, remain unpatentable in view of the new grounds of rejections.

The rejections based on Kamiya'301 have been withdrawn.
